

### RowdySpace Upgrade – Spring Break 2009

In order to make the changeover to the new version, **RowdySpace will be unavailable on Wednesday, March 11, 2009.**

Users who log in to RowdySpace on or after March 12 will be taken to the upgraded version.

All files/folders (as well as their properties) and your contact/group lists from your current RowdySpace account will remain once the upgrade is complete.

Please let your area know about the upgrade. For those who are new to RowdySpace and would like to schedule a training session for their department or office, they may e-mail us at: [oit@utsa.edu](mailto:oit@utsa.edu)

For any problems you encounter, e-mail us at [oit@utsa.edu](mailto:oit@utsa.edu).

### Software Available through ASAP

**EndNote X2** – EndNote is a software tool for publishing and managing bibliographies

**JMP 8** – JMP 8 is statistical discovery software.

**McAfee 8.6 for Windows** – Available through Help Desk for UTSA-owned and ASAP for personal use

**McAfee 8.6 for Mac** – Available through Help Desk for UTSA-owned; negotiating with vendor for personal use

**Microsoft Office 2007 (and MS Office 2008 for Mac)** – Available through Help Desk for UTSA-owned computers.

For more information, contact the Software Licensing Coordinator, Matthew Marr at [Matthew.Marr@utsa.edu](mailto:Matthew.Marr@utsa.edu).

Check your **ASAP** account periodically to see if other software applications are available.

### Microsoft E-Learning Training Courses

Microsoft offers all UTSA students, faculty and staff over 200 E-Learning Training courses for **free**. Classes can be taken at your own pace and include a variety of Microsoft applications from which to choose, such as MS PowerPoint, Access, Excel, etc.

For more information, visit the OIT Home page ([www.utsa.edu/oit](http://www.utsa.edu/oit)) and view the **E-Learning Spotlight article**. Download the **“Getting Started” PDF** file for step-by-step instructions.

### Follow OIT Updates Through Twitter

OIT is using Twitter to deliver real-time alerts and breaking news that affect the UTSA community. The alerts are first posted to the OIT Web site (<http://www.utsa.edu/oit>) and are automatically forwarded to our Twitter followers.

To sign up for Twitter or to learn more about the tool, visit <http://twitter.com>. If you are interested in receiving the OIT Twitter feed, add **UTSAoit** to the list of feeds that you are following from your Twitter account.
